Dan Andrews

Senior / Lead Product Designer · Studio Owner

London, UK · hello@cybercyber.ai · cybercyber.ai

I run cyber:cyber, an independent product design agency. My practice combines client projects, embedded contracts and products I design and build. With a background in experimental psychology, I bring research-led UX and senior hands-on design leadership to complex digital products.

PROFESSIONAL PRACTICE

Studio Owner and Senior / Lead Product Designer

cyber:cyber / Independent product design agency

Lead product definition, research, information architecture and interaction design through implementation. Work directly with clients and engineering teams to resolve complex workflows and carry the experience through delivery.

PRODUCTS DESIGNED AND BUILT

Frame

Jiu-jitsu training journal / Released on iPhone and Android

Conceived the product and designed its identity, UX and native iOS experience. Connected quick session capture with editable detail, chronological history and a position-based technique library. Took the iOS product through implementation and public release.

cybercyber.ai

Kaido

Clinical workspace / Web and iOS / Private pilot

Set product direction and built a workspace connecting caseloads, patient rehabilitation plans, protocols and evidence inspection. Used practising-physiotherapist feedback to refine information at the point of choice and make exercise prescriptions inspectable.

cybercyber.ai

RECENT EXPERIENCE

Senior Product Designer

Spotify / Portal and Developer Experience — Nov 2022 – Jun 2026

Led design across catalog, scaffolder and onboarding from alpha to general availability. Designed AI-assisted review, plugin lifecycle and recovery, and configuration governance; contributed to Backstage UI patterns and design-system standards.

CLIENT AND CONSULTING ENGAGEMENTS

Product Design Lead

Risika / Credit-risk intelligence Aug – Nov 2022

Led product innovation design for financial data products. Ran research and prototyping sprints into how business users interpret algorithmic risk assessments and build trust in AI-generated recommendations.

Product Design Lead

Epic Games / Via Actioncy Dec 2021 – Jul 2022

Led two developer and consumer product engagements, directing research through delivery across concurrent workstreams within a complex technical ecosystem.

Senior Design Researcher

Spotify / Via Elsewhen Jan – Mar 2022

Ran a ten-week engineering-experience research engagement. Synthesised interviews into jobs to be done, process maps and an engineer persona, informing infrastructure OKRs and investment priorities.

Principal Design Consultant

BCG / Via Oktbr Sep – Dec 2021

Led design on strategic engagements connecting business strategy and product execution for complex enterprise systems.

Senior UX Designer

Dell / Via Wunderman Thompson Jul – Sep 2021

Designed an enterprise product configurator with complex product options and dependency logic for business buyers.

Lead Product Designer

InsideOut / AI-driven mental health platform Feb – Jul 2021

Redesigned the core product UI and brand, working directly with engineers on engagement and behaviour-change interactions.

Senior Product Designer

NHS / Public Health England / Digital health Jun – Aug 2020

Designed clinician roster and workstream management tools during COVID-19, within accessibility, clinical safety and governance requirements.

EARLIER EXPERIENCE AND STUDIO COMMISSIONS

Product design engagements with Actioncy, Mo, Rolls Royce via Candyspace, Snap-it and Red C Mobile. First design hire at Mo, working from pre-seed through Series A.

Bittensor: delivered a commissioned identity and generative system, including a deterministic drawing engine, selectable visual registers, application templates and SVG export.

EDUCATION AND MENTORING

MSc Experimental Psychology, University of Bristol · BSc International Management, University of Bath · Introduction to Psychology, University of Oxford · UX Academy, Designlab

Design mentor at Designlab, CareerFoundry and Springboard, covering UX research, interaction design and product design.
